

NEW U. S. PERFIN

There's another new U. S. Perfin pattern, and Secretary Floyd Walker will supply you with a copy if you'll drop him a note.

The pattern is the SEP/./S of the Security Endorsement and Perfins Society of Great Britain.

The SEPS pattern has been used for sometime on British and Swedish stamps, but this is the first time it has been used on U. S. stamps. Walker has a supply of the new 1¢ definitives perforated by SEPS and will supply the Perfin to members on request.

Just drop Walker a note and send along an envelope stamped with either 13¢ return postage (if you want a mint SEPS Perfin) or 12¢ return postage if you want Walker to affix the Perfin to the letter so you will have a used copy.

Walker's address is given above.
